Welcome and thank you for joining us at the Spring 2024 Dealer Buying Event! The Armor Animal Health team hopes you enjoy your time in the Wisconsin Dells. We're here to help you make the most out of this event. Below is everything you need to know about placing event orders. If you have any questions, please see your AAH Sales Representative or any AAH team member at the AAH booth or registration table.

COMPLETED EVENT ORDER FORMS MUST BE SUBMITTED NO LATER THAN 12 PM ON THURSDAY, FEBRUARY 22, 2024.

- The **Event Program** contains a full listing of booths and brands featured at the event.
- **Earn cash backs, rebates and free products for each qualifying order you place with participating manufacturers.** See their programs and order forms for specific details. The first ship date for items ordered from the buying event is **March 1, 2024.**
- **Place orders using the designated order forms. Order forms can be found at individual vendor booths. Order forms for vendors not in attendance can be found in your Event Packet.** Vendors and AAH staff can assist you in earning applicable show specials, rebates and/or cash back deals. When you've completed an order form, please turn that form into the specific vendor. AAH will collect order forms for vendors not in attendance.
- **Record the number of units you would like delivered in the month columns listed on the order forms.** Be clear when placing your orders with vendors whether you are ordering "eaches" or "cases". While many items are sold by "each", there are specific items sold by the "case" only. When ordering case quantities, please write "cs" behind the unit. Shipping begins in **March.**
- Your **AAH Sales Representative** can help you identify new items that may help generate interest and sales in your store.
- **Some vendors will be offering cash or gift cards right at their booth.** After **May**, your purchases will be reviewed for additional rebates and free items per vendor-provided guidelines.
- **You can place orders for non-stock items.** We classify these as "Special Orders" and they must be placed in full case quantities. Other minimum vendor requirements may apply. Special order items are non-refundable. Drop ship and special order items are subject to vendor handling and shipping charges.
- **Dealers who are on route delivery can expect March orders on their next delivery truck unless otherwise specified.** Our sales team will contact you prior to delivering the order.
- **All prices and product availability are subject to change without notice.** Orders and terms are subject to credit approval and acceptance by Armor Animal Health. Either the vendor or AAH will notify you of any changes.

Name Tags

Please wear your name tag at all times when inside the tradeshow. This helps us identify who is meant to be at the event and who is not.

Customer Survey

Your feedback is invaluable to us. Fill out the post-event survey included in your Event Packet to let us know about your event experience and partnership with AAH to help us make future experiences even more amazing.

The labels contain complete use information, including cautions and warnings.

Always read, understand and follow the labels and use directions.

Micotil (ilmicosin injection) is indicated for the treatment of bovine respiratory disease (BRD) associated with *Mannheimia haemolytica*, *Pasteurella multocida* and *Histophilus somni*, and for the control of respiratory disease in cattle at high risk of developing BRD associated with *Mannheimia haemolytica*.

IMPORTANT SAFETY INFORMATION

Before using this product, it is important to read the entire product insert, including the boxed human warning. Caution: Federal

law restricts this drug to use by or on the order of a licensed veterinarian. Not for human use. Injection of this drug in humans has been associated with fatalities. Keep out of reach of children. Administer

only with a tubed safety syringe. Do not use in automatically powered syringes or other delivery devices. Exercise extreme caution to avoid accidental self-injection. In case of human injection, consult a physician immediately and apply ice or cold pack to injection site while avoiding direct contact with the skin. Avoid contact with eyes. Always use proper drug handling procedures to avoid accidental self-injection. Consult your veterinarian on the safe handling and use of all injectable products prior to administration. For use in cattle or sheep only. Inject subcutaneously. Injection of this antibiotic has been shown to be fatal in swine and non-human primates, and may be fatal in horses and goats. Do not use in female dairy cattle 20 months of age or older. Use in lactating dairy cattle or sheep may cause milk residues. The following adverse reactions have been reported: in cattle: injection site swelling and inflammation, lameness, collapse, anaphylaxis/anaphylactoid reactions, decreased food and water consumption and death. Micotil has a pre-slaughter withdrawal time of 42 days.

Zelnate is based on technology developed by Juvans BioTherapeutics and is patent protected. Animal health applications are being developed exclusively under the rights of Elanco and are protected by patents.

Keep Cydetctin out of reach of children.

Baytril, QuickBay and Loncor are sold by Elanco or its affiliates and are not Bayer products. The Baytril and Loncor trademarks are owned by Bayer and used under license.

LET US INTRODUCE YOU**

**DAVID FOSTER
FOUNDER AND CREATOR OF GRUBS BOOTS**

Eight generations of our family have been crafting the finest sports footwear since 1776. Joe Foster, my great grandfather, handmade shoes for the Olympic stars of 1924. My Father and Uncle founded Reebok and I was part of the team that created the iconic aerobic and fitness shoes the company is renowned for. The technology you find in Grubs Boots I learned from my family business at Reebok. My wife, Jan and I created the neoprene revolution in sports and agricultural boots back in 2000. At Grubs® our tradition guides us to provide you with the most comfortable performance footwear available today.
